Insurance

Health and accident insurance is required by Massachusetts law for all students. International students should refer to the specific information on this page. A charge for Clark's Student Health Insurance Plan will be listed on your bill. If you are protected by a private carrier, the charges will be waivered, as long as you return the insurance waiver or complete online by the date your tuition bill is due. However, to be waivered, your insurance coverage must be comparable to Clark's Student Health Insurance Plan, as described in the literature sent with your bill. For more information regarding Clark's requirements please visit the Health Insurance Waiver Information for International Students. You must show proof of health insurance coverage before you will be allowed to register for classes.

Clark University Student Health Insurance Plan and Health Insurance Waiver

Clark University's Student Accident and Sickness Insurance Program is offered to both graduates and undergraduate students. The insurance only provides coverage for individual students - it does not insure children or other family members. Please refer to www.UniversityHealthPlans.com to view the complete benefit brochure. The health insurance plan and insurance waiver form is also available at this site.
