Clark University Recycling Guidelines

Recycling Guide: Short Version for the full list, see below...

Sustainable Clark Recycles: Paper, Cardboard, Metal & Glass, Electronics, Batteries, Bulbs, and ALL Plastics #1 - #7.

Not only is recycling good for the environment and the economy, it's actually illegal not to recycle most of these things! Plus Clark gets direct financial benefit from managing recycleables as the valuable commodities they are. Many other things can be donated or recycled. See the list below for more than 20 other categories & information.

Reduce, Reuse, Recycle. Rethink ways you can Reduce: consider packaging when you purchase, bring a cloth bag or just carry a few items, request that on-line shipments be packed in recycled paper - just a few examples! Reuse donate any and all gently-used unwanted items to Clark's student-run Community Thrift Store. They will find a good home, benefit sustainability and student run ventures, build local economies, and you will get a store discount coupon! Recycle and Compost all you can!

Recycling bins for mixed clean paper and plastic/metal/glass are located throughout the Clark campus in residence halls, academic buildings, administrative offices, and common areas. Compost bins for organic materials are located in the UC, the AC and residence halls. Faculty and staff offices are provided blue deskside bins for paper and are welcome to designate a box or trash can for recycling plastic/metal/glass - custodians will collect and consolidate recyclables in the building's central recycling area.

Please use the recycling bins! You know it's the right thing to do! A recycling bin is never very far away.

The student Recycling Crew picks up recyclables from every campus building once a week during the academic year. If you need an emergency pick-up or have a question about recycling that is not answered in the FAQ's or the Recycling Guidelines below please call Sustainable Clark 508.793.7601.

Clark's Recycling Center, located at 499 Park Avenue, collects and processes campus recycling. It also handles responsible recycling of hazardous materials such as florescent light bulbs; electronic waste such as computers (also called e-waste); bulky metal items such as desks. Disposal of oils, solvents, paints and chemicals is managed according to regulations by Physical Plant staff. Please call Physical Plant at 508.793.7566 for pick-up of any of these items.

Clark Dining Services comports all used paper goods (like napkins), food scraps from the kitchen and the cafeteria, and compostable containers, cups and cutlery from the cafes. Please use the slots labeled compost for all of these items when eating in the Caf, Jazzman's or the Bistro. If it was ever alive, you can compost it!

Clark Composts! Compost bins are all over the UC and the AC, and more bins are located in kitchens and hallways of all residence halls. If you live off-campus, pick up a biodegradable bag from the Help Desk in the UC or use your own container, and bring your organic materials to the compost bins in the AC or UC. Designed, tested and funded by Clark students from 2011-2015, Clark Composts! enables us to divert even more from landfill. Soiled paper, Bistro containers, dryer lint - the list goes on! If it was ever alive, you can compost it!
Recycling off campus The city of Worcester supports single-stream recycling (combined paper, plastic, glass & metal in one receptacle), and you can get a free recycling bin for curbside pick up. Ask your landlord or search the web for 'Worcester city recycling program'.

### Items You Can Recycle & Donate for Re-Use

<table>
<thead>
<tr>
<th>ITEM</th>
<th>INCLUDING</th>
<th>WHERE/HOW</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper</td>
<td>copy paper, office paper, notebook paper, folders, envelopes, mail, magazines, glossy paper, tissue, newspaper, packaging, paper bags, colored paper, sticky notes. &quot;If you can rip it, you can recycle it&quot;!</td>
<td>bins marked 'Paper' throughout campus: paper clips, staples OK</td>
</tr>
<tr>
<td>Confidential paper records</td>
<td>paper that includes personal or confidential information must be shredded</td>
<td>TIP: use the blank side for scrap paper</td>
</tr>
<tr>
<td></td>
<td>boxes, corrugated cardboard, paperboard (thin cardboard like cereal boxes), milk and juice cartons, packaging, liners, pizza boxes, tubes (like inside paper towels), egg cartons</td>
<td>Please no food, wet paper or grease! Compost these items!</td>
</tr>
<tr>
<td></td>
<td>aluminum cans, soda cans, steel cans (like soup cans), tin foil, foil containers, lids, anything made of metal or with metal parts</td>
<td>take to secure lock boxes on campus for ShredIt shredding service (call ITS for locations) - it is recycled</td>
</tr>
<tr>
<td>Metal</td>
<td>bottles, jars, containers</td>
<td>place next to 'Paper' recycling bins, remove inner plastic liners from boxes. Please flatten boxes!</td>
</tr>
<tr>
<td>Glass</td>
<td>NO lab glass, window glass or broken glass</td>
<td>bins marked &quot;Plastic, Metal, Glass&quot;</td>
</tr>
<tr>
<td></td>
<td>bottles, jars, yogurt cups, food containers, to-go containers, plastic cups, straws, lids, milk jugs, blister packaging, coffee cup lids, detergent bottles, toothpaste and cosmetics tubes, utensils, anything made of STIFF plastic. (If you cannot scrunch it easily in one hand it is recycleable).</td>
<td>Please empty and rinse out cans!</td>

shopping bags (Clark is plastic bag free - so why not use a cloth bag instead?)

Plastic Bags

overhead lights, tubes, ballasts, CFLs, squiggle bulbs (considered haz material)

donate to Community Thrift Store during business hours: Weds-Sun, 12-4, 918 Main St. or a donation box at AC & UC

TIP: additional donation boxes are in the res halls during move-out in April and 'Clark Collections' drives

set up an in-office location to share your extra supplies OR donate to Community Thrift Store

take to Price Chopper supermarket

give to your custodian

call Physical Plant 793.7566 for pick-up

Electronic Waste

Clark-owned computers, office machines and small electronic items

submit on-line Work Order to Physical Plant for bulky pick up

if broken, big box retailers may accept; take to Worcester city recycling center, check website for open times

if working, donate to Community Thrift Store

Electric Waste

privately owned computers, tablets, electronics & digital devices

if broken, take to Worcester city recycling center

if working, donate to Clark Community Thrift Store

Wireless and Digital devices

electric items including small appliances, lamps, coffee pots - anything that plugs in

Recycling for Charities provides free shipping; donation benefits charity of your choice,
or donate working items to Community Thrift Store

Toner Cartridges

Xerox brand

Request shipping label.

HP or Samsung brand

Return shipping label is on box under packing list. If not, call 800-213-1112.
Ink jet Cartridges from printers use pre-paid envelope available from Sustainable Clark, 793.7601

CDs music, data, files, instructional, blank

VHS tapes music, movies, blank

Tyvek Envelopes cannot rip them so cannot recycle them

packing peanuts little bits of foam

Styrofoam inserts, containers, packaging, cups, plates, trays

bubble wrap plastic packaging

furniture, bulky goods

Clark-owned office furniture

furniture, bulky goods personally owned furniture, small items only please

donate to Community Thrift Store during business hours

donate to Salvation Army, Savers or other local charity shop

hazardous liquids paint, oil, solvent, glue, chemicals

call Physical Plant x7566 to pick up

TVs cathode ray tube (CRT), console, projection, flat screen

take to Worcester's Residential Recycling Drop Off Center; fee charged

large appliances refrigerators, washing machines, etc.

other items

Please keep recycling categories separate! This is important for the Crew and for our commodity value.

Plastic, metal and glass do not go in 'Paper' recycling bins.

Paper and cardboard do not go in 'Plastic/Metal/Glass' recycling bins.

Unacceptable for Recycling at Clark University

Please DO NOT put the items listed below into Clark University Recycling Bins! They are considered 'contamination' – if more than 10% of total contents is 'contaminated' an entire bin of perfectly good recycling turns into worthless trash. Instead, place them in a trash can. They are the only items that go in a trash can. There are surprisingly few!

Unacceptable in 'Paper' Recycle Bin

Used paper towels, used facial tissues, foil or plastic lined paper, shipping envelopes with bubble
lining, sippy boxes, used paper coffee cups, greasy paper, food-encrusted paper, food itself. **But!! You can compost** soiled paper, wet coffee cups greasy/foody paper and all food!

**Unacceptable in 'Plastic/Metal/Glass' Recycle Bin**

Plastic bags such as chip bags, candy wrappers, plastic box liners; plastic wrap (Saran wrap), any soft plastic you can scrunch in one hand; containers with food or liquids in them, food itself, foam sheets, foam wrap, foam peanuts, styrofoam, broken glass, light bulbs, sharps (needles), CD's or other discs. Empty all containers!
